

**Culvert Replacement Project
State Route 5 Over Bishop Brook
Village of Fayetteville**

**PIN 3805.77
C330003
Onondaga County**

Project Location

The project is located on New York State Route 5, in the Village of Fayetteville, Onondaga County. The culvert site is 0.8 miles east of the intersection of Rte. 5 and 257, between Clark Road and Shady Lane.

Project Schedule

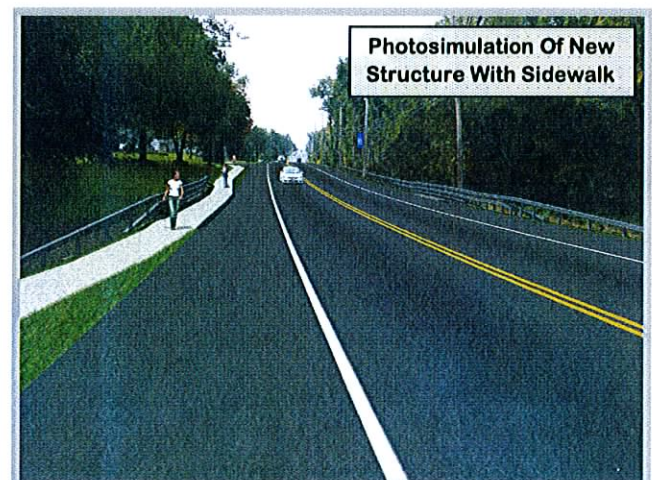

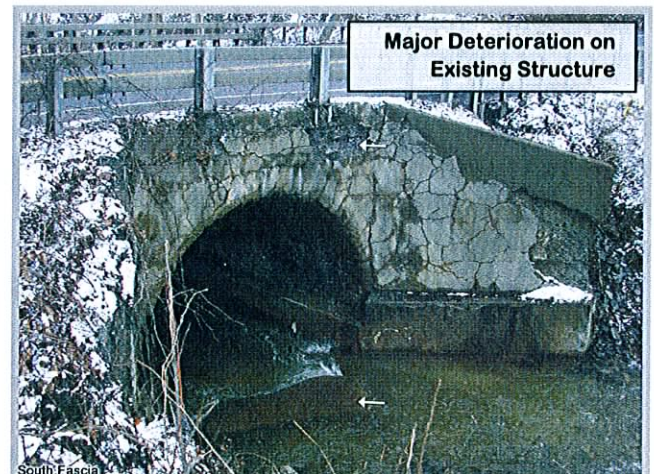

The project is currently in the final design phase with construction scheduled for the 2012 construction season. The demolition of the existing culvert and construction of the new culvert is expected to take approximately 2 months from the start of the work. The detour will be in place for approximately five weeks.

Project Description

The existing stone arch culvert and wing walls will be replaced with a new pre-cast culvert structure. The alignment of the highway and stream will remain unchanged. Sidewalks for this project will tie into the sidewalks associated with the Safe Routes to School Project, PIN 3754.99.

Project Impacts

There are travel and utility impacts associated with the project. Coordination with utility company and local municipalities will be required as part of the project.

Onondaga County**

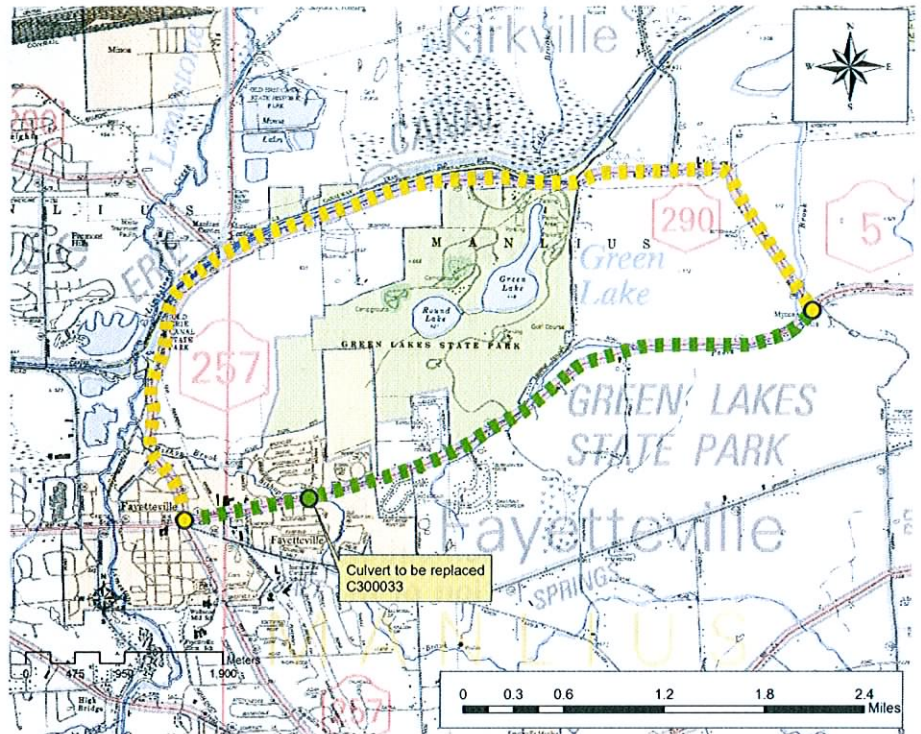

Travel Impacts

Route 5 will be closed to traffic during the culvert replacement, and a signed detour, as shown, will be used to re-route traffic.

The route of the signed detour will be approximately 5.9 miles long and will make use of Routes 257 and 290.

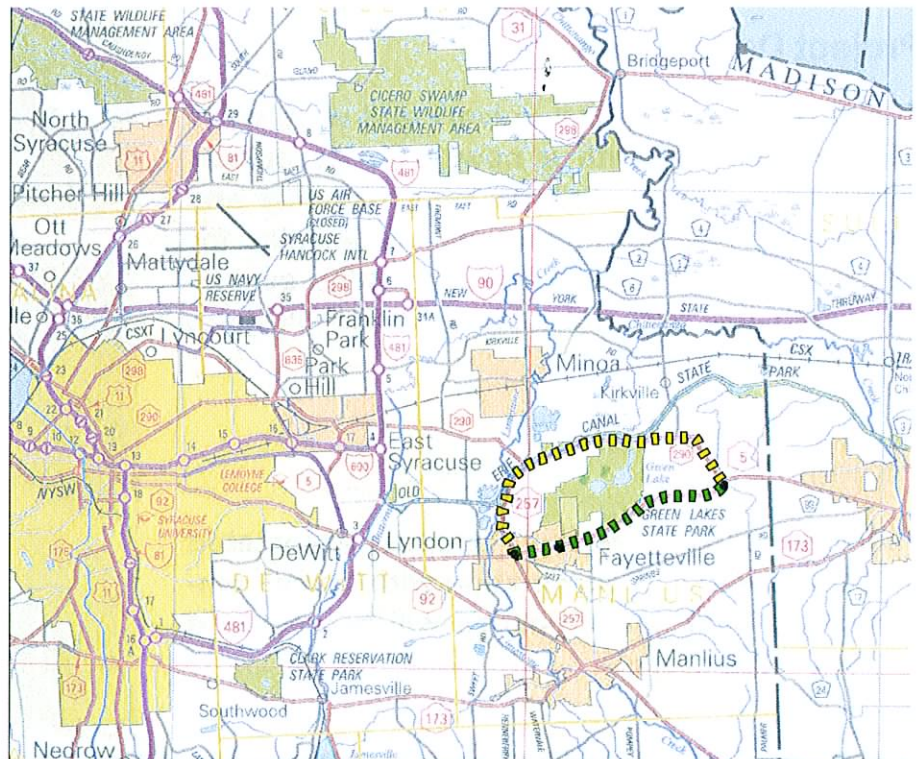

The detour will be in place for approximately five weeks.

Several local roads are available for use by local residents to facilitate a much shorter detour.

Key

-  Detour Route 5.9 miles
-  Start/End Detour
